Hazsafe Site Boxes

Our express delivery Hazsafe site boxes help employers and employees comply with the control of safe storage of hazardous chemicals. Our Hazsafe site boxes are manufactured in Britain from the highest gauge of steel, they also feature a unique ventilated system and is a fully-welded construction in five popular sizes.

Conforms to Health & Safety Executive Guide HSG51 and DSEAR 2002.

- ✓ Fully welded construction for safe storage of hazardous chemicals
- ✓ Hasp lock fitting to suit a padlock (not included)
- ✓ Internal ventilation to prevent build-up of fumes
- ✓ Robust black plastic handles on both side and lid
- ✓ Reaction to Fire Classification EN 13501-1
- ✓ Made-in-Britain for assured quality

FIXING: Hazsafe site boxes can be bolted to the floor or used as a free-standing unit. All Hazsafe models have two bolt holes except HS1 which has one hole.

PAINT FINISH: A three-stage pre-treatment and phosphate coating are applied. Box and lid are powder-coated with one coat of epoxy polyester full gloss powder, stoved at 180deg, incorporating an anti-microbial technology. Finish Truflow Yellow

IMPORTANT NOTICE: Clean paint work periodically with warm soapy water or foaming cleaner. Clean toggle lock sparingly as required with a light 3-in-1 oil.

GHS SIGNAGE: Warning/Hazardous labels supplied.
