

Hazstore 4-Drum Polyethylene Spill Pallet

Features:

- Effective storage and spill management for 4 drums
- Polyethylene spill pallets are compatible with most hazardous chemicals and liquids
- Designed to accommodate a range of drum sizes and types, including steel, fibre and polyethylene drums
- Contain and collect leaks with a 250 litre capacity
- Maximum load capacity of 1250kg
- Forklift pockets allow for convenient transportation and manoeuvring, compatible with a range of common
- Sturdy construction and appropriate sizing minimise the risk of accidental tipping or rolling of drums
- Robust, removable platforms include integrated viewing gaps for quick inspection

Specifications:

Brand	Hazstor
Product Category	Spill Containment
Product Type	Secondary
Color/Colour	Yellow
Package Count	1
Product Width (mm)	1290
Product Length (mm)	1380
Product Height (mm)	280

Logistics:

Shipping Weight (Kg)	30.94
Shipping Weight (lb)	68.2
Tariff Code	39269097

Specifications:**Logistics:****Application**

- Suitable to store 4 x 205 litre drums or similar size fluid containers. The sump under the platform is designed to capture leaks from the stored containers. Spill pallets are widely used in industrial manufacturing, automotive manufacturing and repair, transport and logistics, oil & gas, marine and pharmaceutical industries. Remove drums and empty sump before moving.
